Advanced Cardiac Life Support

This course was developed by the American Heart Association and is based on the recommendations of the National Conference on Cardiopulmonary Resuscitation and Emergency Cardiac Care. The course is intended for physicians, nurses, paramedical personnel, respiratory therapists, and other critical/emergency care professionals who have a need to understand the recommended treatments for critical cardiac patients prior to, during, and post arrest. Participants successfully completing the course requirements will be issued a course completion card.

Advanced Cardiac Life Support

EMSP 2035 - 16 training hours

All prices subject to change.

Initial Tuition: \$175

Textbook: \$40 (subject to change)

Registration deadline is the Thursday prior to the class by Noon.

All classes are tentative and subject to change according to enrollment. Seating is limited.

Pediatric Advanced Life Support

This course gives healthcare professionals the knowledge and skills to better recognize and treat critically ill infants and children. The course uses a scenario-based, team approach to teach pediatric emergency management of pediatric patients approaching or already in respiratory or cardiac arrest. Topics include Recognition and treatment of infants and children at risk for cardio-pulmonary arrest, the systematic approach to pediatric assessment, effective respiratory management, defibrillation and synchronized administration, intraosseous access and fluid bolus administration and effective resuscitation team dynamics.

Pediatric Advanced Life Support

EMSP 1047 - 16 training hours
All prices subject to change.

Tuition: \$175

Textbook: \$45 (subject to change)

Victoria Main Campus

April 20 & 21, 2024

Saturday & Sunday • 8 a.m.-5 p.m.

Allied Health Building, Room 112

RECERTIFICATION

Pediatric Advanced Life Support

EMSP 1047 - 8 training hours
All prices subject to change.

Tuition: \$95

Textbook: \$45 (subject to change)
