

VISD/VC Dual Credit Student Contract

The VISD Education Foundation and Victoria College Foundation created a Dual Credit Partnership to offer Victoria East and West Students tuition at a reduced rate. This opportunity allows students to receive college credit while in high school and begin their college career with additional support.

To qualify you must:

- Attend a Dual Credit Informational Session with a parent or guardian
- Be TSI-Complete
- Have applied to Victoria College

The \$214.00 tuition credit, which will considerably reduce the course cost, may only be applied to one dual credit course per semester within the academic year (fall/spring). Course registration will be approved by the Career and College Coach and high school counselor prior to enrollment.

Dropping a Course

This financial assistance is similar to financial aid offered in college. For that reason, a VISD student will not be eligible for funding during the second semester, if he/she drops the first semester course for which the tuition credit has been applied.

Contract Points to Consider

- A. The \$214.00 tuition credit may only be applied to an approved dual credit course. All other courses will be offered at the regular tuition rate.
 - a. Continuation of funds require a student to earn a cumulative college GPA of a 2.0 or higher.
 - b. If a student is placed on Academic Probation and/or Enforced Withdrawal by Victoria College, the student will not be awarded a \$214.00 credit for the following semester.
- B. A student may appeal to the Career and College Coach if:
 - a. There was death in the family
 - b. An injury or illness occurred
 - c. Other extenuating circumstances

The Victoria College and Victoria ISD review committee will evaluate the appeal to determine funding for the proceeding semester.
