

Is your Wi-Fi Slow on Campus?

There is a good chance you are connected to the wrong Wi-Fi Network.

Visit wifi.victoriacollege.edu to help you get your device configured.

VC students and employees are strongly encouraged to configure their wireless devices to use the secure **VC-WPA2** wireless network. Once configured, you will not need to re-authenticate unless you change your password.

- Student usernames should look like: **v00123456** or **xx123456**.
- Employee usernames should look like: **jsmith**.

Scan this QR Code

to access the Wi-Fi configuration page, which will auto-detect your device and give you device specific instructions for authenticating.
